Speech of the General Secretary

On behalf of Bangladesh Hindu Buddhist Christian Unity Council, an anti-religious discrimination human rights organization, I extend my heartfelt greetings to all of you. We would like to express our sincere gratitude to all of you for your generous presence at today's press conference in response to our call.

We are here today with a heavy heart, as we gather to address recent and deeply disturbing incidents affecting our minority community. We all know that, on 5th August 2024, the government was forced to resign following a one-point demand for the resignation of the Sheikh Hasina. This demand emerged from the student community, which had been protesting for over a month, calling for fair reforms to the quota system in government jobs. The movement intensified after acts of brutality against innocent students, further fueling the unrest. Bangladesh Hindu Buddhist Christian Unity Council has expressed deep anger and shock at the killing of innumerable people including children and students in the anti-discrimination student movement. The Oikya Parishad prays for eternal peace of the departed souls of those who were killed in the student movement and expresses deep shock and sympathy to the family members of the victims. The Oikya Parishad is praying for the speedy recovery of those who are injured in the movement and urging the rich people of the society to come forward to help the injured so that proper treatment is provided to them. I am urging the interim government to take legal actions against the criminals involved in the killing of students and people in different parts of the country.

After the fall of Sheikh Hasina's government, the law-and-order situation in the country deteriorated drastically during the period between the Hasina government fall and the assumption of office of the interim government led by Nobel Peace Laureate Dr. Muhammad Yunus on August 8, 2024, which is still continuing thereafter. Taking advantage of this situation, a section of opportunistic miscreants have attacked, vandalized, looted and set fire on minority community houses, places of worship, business establishments in across the country. Land has been forcibly occupied and is still getting occupied forcibly. In some areas, women have been raped and tortured, and innocent people have been tortured and killed. Extortion has been done, or there has been a threat to leave the country, and the threats are continuing. In the psychological perception of a section of people, anti-India sentiment has turned into anti-Hindu sentiment. In such a mentality, a wicked class of students, instigated by miscreants by the name of general student, has humiliated and harassed teachers of minority communities in different educational institutions across the country. Those teachers have been forced to resign or threatened to resign. These actions are very sad, condemnable and a crime against human rights. Bangladesh Hindu Buddhist Christian Unity Council expresses deep resentment and condemnation over these incidents and demands exemplary punishment to the miscreants involved in the above-mentioned crimes under the law.

On August 3, 2024, the central committee of Bangladesh Hindu Buddhist Christian Unity Council formed a six-member central monitoring cell to monitor the overall security of the religious-ethnic minority communities and the activities of communal evil forces in the light of past experience in terms of the course of the student movement. The list of members of the monitoring cell is given below:-

Mr. Nirmal Rozario as convener, Manindra Kumar Nath as member secretary, Advocate Kishore Ranjan Mondal as member, Sagar Halder as member, Advocate Dipangkar Ghose as member and Engineer Suvra Dev Kar as member.

The Hindu Buddhist Christian Unity Council, after the fall of the Sheikh Hasina government, before the interim government assumed office, has collected the information regarding the violent incidents taking place between August 5 to August 8 against the religious and ethnic minorities in different parts of Bangladesh through phone calls from the victims and their associates, social media data and reports published on media and sincerely tried to disseminate the aforesaid information to the concerned authorities so that they can protect the religious and ethnic minorities of the country. On August 9, the day after the formation of the interim government, an open letter was sent to the Honorable Chief Adviser Dr. Muhammad Yunus through a press conference held at the Reporters Unity in Dhaka, in which it was primarily reported 205 incidents in 52 districts. That day, we have mentioned that the monitoring cell of the Oikya Parishad is continuing to finding the facts of communal violence, and today, we present a more comprehensive list detailing the incidents of attacks, vandalism, looting, violence against women, and arson targeting minority communities between August 4 and August 20 through this press conference. There is much more information beyond this which we could not be able to comprehend yet. The list prepared based on the information received from the district/metropolitan committee of Bangladesh Hindu Buddhist Christian Unity Council, was scheduled to be published on August 23 2024. However, due to unforeseen delays in preparation, we regret that this was not possible. We apologize for this unintentional delay.

Today, we present the list of incidents that occurred between August 4 and August 20, 2024, which documents 2,010 instances of violence. A summary of the details is as follows:

- A total of 1,705 families have been directly impacted by 2,010 incidents of communal violence in 68 districts and metropolitan areas out of the 76 in Bangladesh. Among those affected, 157 families had both their homes and businesses attacked, looted, vandalized, and set on fire.
- The Khulna division saw the highest number of cases of communal violence, where four women were raped, including one who is speech impaired.
- Of the 1,705 families affected by communal violence, 34 belong to indigenous communities, whose houses have been looted, vandalized, set on fire and lands of some of these families have been encroached upon.
- In communal violence, 69 places of worship were attacked, vandalized, looted and set on fire. An analysis of data on incidents of communal violence shows that these incidents occurred in every division and places of worship and people belonging to Hindu, Buddhist, Christian and indigenous communities were affected.

- From August 4 to 20, 2024, about 50,000 men, women, adolescents, children and people with disabilities were directly affected by communal violence and the number of victims of trauma is estimated at 20 million religious-ethnic minorities and indigenous people across the country who are currently living in panic and fear.
- There are 157 families who have lost their homes, business establishments, money and everything and are now living a miserable life with their families.

The main objective of the anti-discrimination student movement is to ensure equality, human dignity and social justice as mentioned in the Declaration of Independence of April 10, 1971 in the light of the spirit of the Liberation War by eliminating discrimination at all levels of the state and society irrespective of religion, caste and gender. Bangladesh Hindu-Bouddha-Christian Oikya Parishad hopes and wants to believe that the interim government led by Nobel Laureate Dr. Muhammad Yunus will play an unfaded role in removing the inconsistencies and inequalities in all sectors of the society during their tenure and will pave the way for establishing Bangladesh as a truly non-discriminatory, democratic and non-communal state in the world. But it is unpleasant but true that the reading of only one Holy Scripture at the swearing-in ceremony of the new advisory council at Bangabhaban has disappointed the minority community. We met the Honorable Chief Adviser on August 13, 2024 and placed an 8-point demand on behalf of the minority community, including stopping communal violence immediately, and ensuring exemplary punishment of the miscreants. But we do not see any visible initiative to implement the 8-point demand. We strongly demand the implementation of the 8-point demand (8 points attached).

The great purpose and goal with which Bangladesh was liberated, for which Muslims, Hindus, Buddhists and Christians joined shoulder to shoulder in the liberation war, three million people sacrificed themselves, two lakh mothers and sisters were violated, one crore people had to take shelter as refugees in India and had to lead an inhuman life, 92 percent of whom were minorities, especially the Hindu community. In that independent country, after 1972, 1990, 1992, 2001 to 2006, 2013 to 2021 and then till the current government took charge in 2024, during the tenure of every government, minority communities, most of whom are Hindus, have been victims of torture, oppression and discrimination in different ways in different parts of the country. It is unpleasant but true that during the tenure of any previous military-civilian government, thousands of tortures and oppression on minority communities have not been prosecuted or the culprits have not been punished. As a result, the population of minority communities has come down from 19-20% in 1970 to about 9% in 2024.

It is a matter of hope that this time against communal violence, against crimes against humanity, women and men, students, youths and teenagers of minority communities all over the country have taken to the streets to protest and try to build resistance. The minority communities of the country want to have confidence and belief that the culture of impunity in the past will not continue even during the tenure of the present government, which came to power through the anti-discrimination student movement, and not a single person of the minority community will be forced to leave the country.

The news of the investigation activities being conducted under the supervision of the United Nations Fact-Finding Committee in the case of crimes against humanity that took place during the anti-discrimination student movement has assured the people of Bangladesh. From this press conference, we earnestly appeal to Mr. Antonio Guterres, the Honorable Secretary-General of the United Nations on behalf of the religious-ethnic minority people of Bangladesh that after the fall of Sheikh Hasina, the incidents of communal atrocities targeting the minorities as well as all the crimes against humanity and genocide committed on the minorities from October 1990 to 2021- should be investigated under the supervision of the United Nations. It should be determined whether the continued violence against minorities is state sponsored, politically motivated or communal in nature. On behalf of the minority people, we are emphasizing the importance of bringing those responsible for these incidents to justice. From today's press conference, we urge the UN Secretary General in this regard. In this connection, I would like to mention that the Shahabuddin Commission was formed in 2009 under the direction of the Honorable High Court to investigate communal violence from 2001 to 2006. Although the committee submitted its report to the previous government in 2011, it did not see the light of day, let alone implementation of the recommendations. The communal violence that took place from 2013 until 2021 was also not prosecuted. The then Attorney General's appeal to the Chamber Judge of the Supreme Court was stayed immediately after the start of the judicial inquiry into the communal violence during the Durga Puja period of 2021 under the direction of the Honorable High Court. We think and strongly believe that the communal incidents targeting minority communities over the last four decades also amount to crimes against humanity.

I wish you good health and a long life.

193.	District- Lalmonirhat, Upazila- Hatibandha	9th August, 2024	Hindu people are staying at the Indian border, leaving behind their homes and everything else in Hatibandha. From morning onwards, they started gathering at the Gotamari border of the Upazila. Later, upon receiving the news, members of the law enforcement agencies of India and Bangladesh brought the situation under control. It is known that after Sheikh Hasina resigned from the post of Prime Minister, miscreants vandalized and set fire to the houses of Hindu people in Hatibandha, Lalmonirhat, as in other parts of the country. And for that reason, about a thousand Hindu people tried to go to India through the border on Friday.	Ittefaq, 9th August, 2024
